## QUESTION ONE

Risk, in insurance terms, is the possibility of a loss or other adverse event that has the potential to interfere with an organization's ability to fulfill its mandate, and for which an insurance claim may be submitted. Business risk is any exposure a company or organization has to factor(s) that may lower its profits or cause it to go bankrupt. The sources of business risk are varied but can range from changes in consumer taste and demand, the state of the overall economy, and government rules and regulations. While companies may not be able to completely avoid business risk, they can take steps to mitigate its impact, including the development of a strategic risk plan.
